Saunders Waterford Series Watercolour Paper
638g - 30" x 22" (760mm x 560mm) Cold Pressed

Saunders Waterford® is an exquisite English watercolour paper, traditionally made on a cylinder mould machine.

This is the superior quality watercolour paper made by St Cuthberts Mill and comes with the **Royal Watercolour Society's** endorsement. Made using 100% cotton, the highest quality papermaking material, to high archival standards. Each sheet is buffered with calcium carbonate to help defend finished pieces of work from discolouration caused by acids present in atmospheric pollution.

Its attractive surface is created using natural woollen felts that give it a distinctive random texture. The surface is sized in gelatine making it strong and resilient to scrubbing, and other rough treatments.

Saunders Waterford® is a top quality professional watercolour paper.
